

TOUCHLINE^{PRO}

portable dugout

The two halves slide apart revealing the other components stored safely inside.

00:15

00:30

position base mouldings and connect together using rubber latches.

01:00

Side frames connect into base mouldings.

Attach fabric cover to base mouldings and position GRP pole between frames to add tension.

02:00 **FULLY ASSEMBLED IN JUST 2 MINUTES.**

Packed unit is fully self contained and fits into the boot of most cars. Carry handles allow for simple transportation and the robust rotomoulded construction can take all the abuse thrown at it.
